***NYC PLAYWRIGHT BRINGS 80's COMEDY TO CHICAGO STAGE***

Chicago, IL - Rubicon Theatre Project will produce the World Premiere of Liza Lentini's *Brain Children* at Chicago's Apollo Studio Theatre in March.

*Brain Children* tells the story of four child geniuses sequestered into an experimental and sometimes shocking "program" for gifted children. The story follows these four archetypal kids from 1981-1984, and how their innocence gives way to the evolution of their individuality as they make the journey from the ages of nine through twelve. The kids are played by adults who interpret the experience for the audience, lending credence and credibility to their childhood achievements and growing pains.

Liza Lentini holds an MFA in Playwriting from Southern Illinois University at Carbondale and currently resides in New York City, where her work has been widely produced including the extended Off-Broadway run of *Drowning in Euphoria*.

*Brain Children* will be directed by Rubicon member Kassi Dallmann.

Running Dates: March 23<sup>rd</sup> - April 29<sup>th</sup>.

Performances: Thursday, Friday and Saturdays at 8:00 p.m.

Location: Apollo Studio Theatre, 2540 North Lincoln Avenue.

Tickets: \$25 for adults, \$20 for students and seniors.

Reservations: Apollo Theater Box Office at (773) 935-6100 or visit [www.ticketmaster.com](http://www.ticketmaster.com).
